	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

Trash and other toxins left on the ground or streets can ruin our enviroment. When they come in contact with any type of water they often wash onto beaches and into the ocean, threatening animal and human life. Help make a difference and prevent this pollution at the source by following the steps below:

REDUCE, REUSE and RECYCLE! Paper, used motor oil and filters, plastic, cans, wood, metals, glass, clothes, yard waste, computers, beverage containers and more are recyclable. Call 1-800-CLEANUP or visit www.ciwmb.ca.gov for more information on used oil and other recycling programs, and to find locations near you!

To get rid of pesky bugs, try to use non-toxic pesticides. Do not apply pesticides or fertilizers prior to watering or a rain storm. Otherwise the chemicals will wash into the storm drain system at full potency and pose serious threats to human and marine life.

Remember to sweep up all leaves, twigs, grass clippings, etc., rather than hosing them down lawns, sidewalks or driveways.

Batteries, pesticides, oil containers, cleaning products, and other chemicals do not belong in the trash. They can contaminate ground and stormwater. To dispose, please call one of the numbers listed below.

Plants like a lot of water, but overwatering can contribute to urban runoff pollution if the water washes into the street. Water for short periods of time in the evening or morning which helps prevent evaporation.

Throw your trash in a can, not on the street!

City of Redondo Beach Environmental Programs

For more information call (310) 318-0661. To report illegal dumping call (888) CLEAN-LA.
